Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The Examiner has carefully considered Applicant's response filed September 17, 2007. The previously set forth 112, 1st paragraph rejection has been maintained.

Specification

2. The amendment filed September 17, 2007, is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: in paragraph [0037], Applicant has amended the specification to read on a "non-perforated" facing.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-10, 13, 15-17, and 20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Independent claims 1 and 13 are now drawn to a "non-perforated" facing. This negative limitation is not supported by the specification. *Ex parte Grasselli*, 231 USPQ 393. These limitations are considered new matter and amendments to the claims are required to delete these

new matter limitations. The remaining dependent claims are rejected as being dependent upon a rejected independent claim.

Rejection is maintained.

Response to Arguments

5. Applicant's arguments filed September 17, 2007, have been fully considered but they are not persuasive. Applicant argues that there is support in Figures 1 and 2 for the limitation of a "non-perforated" facing. This argument is not persuasive because the drawings do not contain sufficient implicit support to show that a non-perforated embodiment was within Applicant's grasp at the time of filing. Furthermore, negative limitation requires more than mere silence to demonstrate Applicant possessed the invention at the time of filing. The drawings fail to demonstrate that there is a basis in the original disclosure for the claimed limitation. At its best, the figures show a mere absence of a positive recitation which is not basis for exclusion. MPEP 2173.05(i). Therefore, the rejection is maintained.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be

calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
